

Guidance to get username and password for using the computers, vpn and wifi

1

go to internet address
account.iums.ac.ir

Wi-Fi network: iums – Hotspot

2

1. To receive the password, enter your username (student number) in this section and click the "Get Information" button.

3

In case the phone number was not found at the address, please mail your phone number and student number to the **account@iums.ac.ir**

4

After confirming the displayed information, a confirmation code will be sent to your mobile number

After entering the SMS code in the verification code section, select the "Confirm/Send" button

5

By entering the confirmation code, the page for receiving the password will be displayed to you, where you can determine your new password by following the rules.

6

- * Minimum password length: 8
- * The password must contain at least 1 number, 1 uppercase letter and 1 lowercase letter
- * The new password must not be the same as the previous password

If you have any problems in this regard, call this number **021-86702512**
